"Supporting Your Projects from Conception to Completion"

## MEP Infrastructure for the Next Generation of Data Centers

Excel Mechanical Contractors is a self-performing MEP contractor supporting the evolution of data centers and mission-critical infrastructure as power density, cooling demands, and AI workloads continue to accelerate.

With union labor, nationwide scale, and 24/7/365 service, Excel brings the technical capability and operational discipline required to help facilities upgrade, modernize, and prepare for the future of AI-driven infrastructure.

### Mechanical

- ▶ Advanced HVAC & HVAC-R systems for high-density environments
- ▶ Cooling towers, chilled water, and piping systems
- ▶ Infrastructure support for direct-to-chip and liquid cooling deployments

### Electrical

- ▶ Electrical system installation and maintenance for commercial & industrial facilities
- ▶ Power distribution for mission-critical facilities
- ▶ Electrical scope support for Battery Energy Storage Systems (BESS)

### Plumbing

- ▶ High-performance plumbing and water management systems
- ▶ Piping infrastructure supporting advanced cooling technologies
- ▶ Make-up water, process water, and system integration for mission-critical facilities

### Supporting AI & Data Center Evolution

Excel is positioned to support:

- ▶ AI-driven data center expansions
- ▶ Power-dense and high-availability environments
- ▶ BESS installations and supporting infrastructure
- ▶ Direct-to-chip and liquid cooling retrofits
- ▶ Facility modernization and phased upgrades without downtime

Their ability to self-perform, integrate with owner and operator systems, and respond in real time makes Excel a strong partner for both new builds and existing data center upgrades.

### Built for Today. Ready for What's Next.

Together, Excel Mechanical Contractors and DMK Project Solutions Services deliver a fully aligned approach to mission-critical and data center infrastructure, combining strategic oversight with self-performing MEP execution, helping facilities stay reliable today while preparing for the demands of tomorrow.

### Why Excel

- ▶ Self-performing, W-2 union workforce
- ▶ Mission-critical mindset with 24/7/365 respon
- ▶ Proven QA/QC and reporting processes.
- ▶ Seamless integration with customer platforms and workflows
- ▶ Scalable support across large, distributed portfolios

This combination of workforce, process, and responsiveness allows Excel to act as a trusted MEP partner, delivering reliable execution, clear communication, and consistent results across every facility they support.

### Capacity & Coverage

With deep operational coverage across the Upper East Coast and a strong core market in the Baltimore Metro region, Excel Mechanical Contractors is positioned to support mission-critical facilities at scale. Backed by **100+ affiliates** and coverage across **1,000+ locations**, Excel provides the reach, responsiveness, and coordination required for always-on and expanding portfolios.
